\$5.00 Each**

### **ROCK-SOLID WORKHORSE. WORKS AS SMOOTH AS SILK.**

The all-new 870 FieldMaster, an All-American pump gun, brings hunters the best of all worlds. The ready-for-work exterior of the Model 870 FieldMaster lies the same quality, precision, and dependability that you'll find in our legendary Model 870 Wingmaster®. Like all Model 870 shotguns, it features a receiver milled from a solid billet of steel for maximum strength and reliability. Improved twin action bars prevent binding and twisting so that you'll always have the chance to get off a second shot. Appropriately dressed for the hunt and not for the wall, each shotgun sports non-reflective matte black metalwork and an open grain, grade A walnut stock set. This 12-gauge model has a 28" vent-rib barrel with a single white bead sight. The receiver is drilled and tapped for scope mount. From an open to tight shot patterns, the 870 FieldMasters will come with three Rem™ Chokes that can adapt to any hunting, self-defense, or clay target event that may come your way.

Its solid, dependable action makes it America's favorite pump shotgun. Continual upgrades and evolving designs make it the most advanced, well-rounded pump shotgun in the world. Its superiority is a matter of rugged dependability, great pointing characteristics and versatility. For more than 70 years, The Model 870™ has set the standard for slide-action performance.
