

Training Day April 15, 2023

We will be holding our training day on the third Saturday in April. This will be a WATER Specific day.

Time: April 15 at 08:00am

Place: The Buckeye Irrigation District storage ponds located at <https://www.google.com/maps/place/33%C2%B023'51.8%22N+112%C2%B021'33.1%22W/@33.3917921,-112.3595897,7197m/data=!3m1!1e3!4m4!3m3!8m2!3d33.397707!4d-112.359182#:~:text=https%3A/goo.gl/maps/dR2nxqAcvoAr9Yxk9>

This is a new training area that has just opened to us and will be our inaugural training day here. We have received permission from the Buckeye Irrigation District to use their storage ponds. As we all know, finding good water to train on is a challenge in Arizona. For the next few months we must have a board member present for all activities at this location. The Buckeye Irrigation District needs prior notification of our intent to use the area. They also do not want any shooting of live rounds on the property. Of course, we need to take care not to damage the area or leave anything behind.

We will try to have a couple of different skill levels set up for the day.

Please try to let us know if you are coming to help with planning.

Hope to see you there!

*Mike Wilson,*

*President CSHRC*
